Workshops

Date/Time	Location	Title	Information	Registration	Target Audience /Target Capability
December 5 – 6 8:30 am – 4:30 pm	Lewiston, ID	IOEM (G400), Advanced ICS	This course provides training and resources for personnel who require advanced application of the ICS. This course expands upon information covered in ICS-100 through ICS-300 courses. These earlier courses are prerequisites for ICS-400. Course Topics: Explain how major incidents engender special management challenges. Describe the circumstances in which an area command and multi-agency coordination system is established.	Register HERE For more information contact: Natalie Lahti siteadm@bhs.idaho.gov See also Idaho Learning Management System	Senior personnel who are expected to perform in a management capacity in an area command or multiagency coordination entity.
January 9 8:00 am – 4:30 pm	Spokane, WA	1 Day New Certification - MOAB Management of Aggressive Behavior	MOAB® presents principles, techniques, and skills for recognizing, reducing, and managing violent and aggressive behavior. The program also provides humane and compassionate methods of dealing with aggressive people. Regardless of your age, size or strength you can create a win-win situation in difficult confrontations and resolve conflicts decisively and diplomatically with: • Verbal and non-verbal communication skills • Personal defense and safety skills	For more information and to register, visit HERE .	Those involved in public health or the healthcare industry.
January 17 8:00 – 11:30 am	Spokane, WA	4-Hour Re-Certification – AM Session - MOAB	Re-Certification of MOAB principles, techniques, and skills for recognizing, reducing, and managing violent and aggressive behavior. The program also provides humane and compassionate methods of dealing with aggressive people. Regardless of your age, size or strength you can create a win-win situation in difficult confrontations and resolve conflicts decisively and diplomatically with: • Verbal and non-verbal communication skills • Personal defense and safety skills	For more information and to register, visit HERE .	Those involved in public health or the healthcare industry.
January 17 1:00 – 4:30 pm	Spokane, WA	4-Hour Re-Certification – PM Session - MOAB	Re-Certification of MOAB principles, techniques, and skills for recognizing, reducing, and managing violent and aggressive behavior. The program also provides humane and compassionate methods of dealing with aggressive people. Regardless of your age, size or strength you can create a win-win situation in difficult confrontations and resolve conflicts decisively and diplomatically with: • Verbal and non-verbal communication skills • Personal defense and safety skills	For more information and to register, visit HERE .	Those involved in public health or the healthcare industry.
January 28 or January 29 8:00 am – 5:30 pm	Spokane, WA	Mental Health First Aid	A person you may know could be experiencing a mental health or substance use problem. You are more likely to encounter someone in an emotional or mental crisis than someone having a heart attack. Learn how to help a friend, family member, coworker or neighbor in need. Get trained in Mental Health First Aid.	For more information and to register, visit HERE or call (206) 592-3785	Those interested in learning more about Mental Health First Aid.

Date/Time	Location	Title	Information	Registration	Target Audience /Target Capability

FEMA Resident Trainings

- Please note: All the following FEMA trainings are free. Many require pre-requisites

Date/Time	Location	Title	Information	Registration	Target Audience /Target Capability
February 3 – 8 March 3 – 8	Anniston, AL	(FRAME AWR-900) Framework for Healthcare Emergency Management	<p>Framework for Healthcare Emergency Management (FRAME) is a four-day course designed for personnel who are responsible for the development, implementation, maintenance, and administration of emergency management programs and plans for healthcare facilities and/or systems (e.g., hospitals, clinics, or community health centers). Functional areas addressed in this course include an overview of relevant standards, regulations, and organizations; integration with agencies and stakeholders; the Incident Command System (ICS) as it applies to healthcare; plans and the planning process; facility and personnel preparedness; exercises and training; and surge and related mass casualty issues (including patient care and/or ethics, evacuation, public affairs, and risk communications), recovery, and finances/reimbursement.</p>	<p>Please see course offerings HERE.</p>	Emergency Management, Emergency Medical Services, Healthcare and Public Health.
February 10 – 16 February 24 – March 2 March 10 – 16	Anniston, AL	(HERT PER-902) Hospital Emergency Response Training for Mass Casualty Incidents	<p>The Hospital Emergency Response Training for Mass Casualty Incidents (HERT) course addresses healthcare response at the operations level for the facility and its personnel. This three-day course prepares healthcare responders to utilize the Hospital Incident Command System — integrating into the community emergency response network while operating an Emergency Treatment Area as hospital first responders during a mass casualty incident involving patient contamination. The healthcare responders will determine and use appropriate personal protective equipment and conduct triage followed by decontamination of ambulatory and nonambulatory patients as members of a Hospital Emergency Response Team.</p>	<p>Please see course offerings HERE.</p>	Hospital staff members who comprise a Hospital Emergency Response Team, such as physicians, nurses, administrators, security personnel, environmental staff, and other hospital staff.

Date/Time	Location	Title	Information	Registration	Target Audience /Target Capability
February 24 – March 2	Anniston, AL	(EMO PER-267) Emergency Medical Operations for CBRNE Incidents	The Emergency Medical Operations for CBRNE Incidents (EMO) is a four-day course that prepares responders to effectively respond to a chemical, biological, radiological, nuclear, or explosive (CBRNE) or mass casualty incident. The four-day EMO course provides classroom lectures, extensive hands-on training, and culminates with a hands-on practical exercise that allows responders to implement the emergency-response knowledge and skills learned during the course.	Please see course offerings HERE .	EMS, Healthcare, Public Health, EMT's, Paramedics, and Hospital Staff, including Physicians and Nurses. Responders must be state-licensed Paramedics, Emergency Care Providers
March 16 – 23, 2019	Anniston, AL	4th Annual Tribal Nations Training Week “Strengthening Collaborative Partnerships”	The Center for Domestic Preparedness invites you to join us as we conduct a focused training week to enhance emergency management/response capabilities of tribal nations and promote collaboration among partners to better serve tribal nation communities.	Please see this website .	Emergency responders serving tribal nations.

Webinars/On-Line Training

Date/Time	Location	Title	Information	Registration	Target Audience /Target Capability
December 5 12:00 pm	Webinar	Fires, Mudslides, Earthquakes, Shootings: Promoting Personal and Community Resiliency After Mass Trauma	At the end of this webinar participants will be able to: <ul style="list-style-type: none"> • Formulate ideas to promote connectedness and hope within your community. • Describe evidence-based approaches to the promotion of resiliency for trauma-exposed individuals. • Identify 5 essential elements of short-term mass trauma intervention. 	For more information and to register, visit HERE .	Individuals in health, public health, and emergency management leadership roles
December 6 11:00 am	Webinar	Million Hearts in Municipalities Collaborative: Implementing Million Hearts Strategies in Your Community	NACCHO in partnership with the CDC will host a national Million Hearts in Municipalities Collaborative to support community efforts to implement Million Hearts® 2022 strategies to reduce heart disease and stroke. Municipalities (city and county-level) participating in this collaborative will be able to share their cardiovascular disease achievements and engage in the broader Million Hearts® 2022 initiative. Through this collaborative, participants will learn and share through targeted webinars, resources, and technical assistance activities. Participants will also be able to connect with Million Hearts® national partners, subject matter experts and other municipalities doing similar work. Please join us to learn more about the Million Heart®2022 initiative in Municipalities, the resources and partnerships that exist, and how you can engage in virtual peer-to-peer exchange.	To register, visit HERE For more information, please email: chronicdisease@naccho.org	Health Care Professionals, Leadership Community Members, Public Health Professionals.

Date/Time	Location	Title	Information	Registration	Target Audience /Target Capability
On-demand	Online videos	Disaster Resilient Communities Group Disaster Training Video of the Day	<p>The videos found in this library cover disaster related mitigation, preparedness, response and recovery training.</p> <p>Videos include:</p> <ul style="list-style-type: none"> • Flood Recovery – The Long-Term Health Impacts • Social Media and Crisis Management • Community Emergency Response Team (CERT) – Pandemic Response – Personnel Protection 	<p>Free</p> <p>See the Disaster Resistant Communities Group website for more videos and resources</p>	
On-demand	Online	FEMA and Management Partner Organizations PrepTalks	<p>PrepTalks are given by subject-matter experts and thought leaders to spread new ideas, spark conversation, and promote innovative leadership for the issues of confronting emergency managers now and over the next 20 years.</p> <p>The most recent PrepTalk released, Triage, Ethics and Operations - Healthcare Emergency Preparedness and Response details two tragic events that demonstrate the value of situational awareness, the complexities of prioritizing limited resources, and the importance of ensuring systems can effectively support operational decisions. "How we allocate the resources that we have in disasters," Dr. Fink said, "How we choose who gets the resources ... is going to affect the outcome."</p>	<p>Visit FEMA.gov/PrepTalks for more information.</p>	<p>FEMA encourages emergency managers to watch these PrepTalk presentations with relevant partners.</p>
On-demand	Online	FEMA Podcasts	<p>The FEMA Podcast is a new audio program series about the agency, innovation in the field of emergency management, and stories about communities and individuals recovering after disasters. These podcasts are approximately 20 to 30 minutes in length, the podcast will be updated with a new episode on a weekly basis. Also included in the weekly podcast is a link to the transcript.</p>	<p>Visit www.fema.gov/podcast</p> <p>The FEMA podcast is available on Apple iTunes to stream or download.</p>	<p>Anyone interested in learning more about the agency, hearing about innovation in the field of emergency management, and listening to stories about communities and individuals recovering from disasters.</p>
On-demand	Online courses	Primary Care Providers' Role in Supporting Children, Families, and Professional Self-Care Following Hurricanes and Other Disasters	<p>Primary care providers are essential for promoting children's mental health and well-being throughout the recovery process following hurricanes. Disasters such as Hurricanes Harvey, Irma and Maria can cause short and long-term effects on the psychological functioning, emotional adjustment, health, and developmental trajectory of children. Additionally, disasters often impact healthcare providers to at least the same degree they impact others in the community, and being with suffering children and families can be distressing for providers. During this COCA Call, clinicians will learn to identify common adjustment difficulties in children, practical strategies to promote effective coping skills in children and their parents, and the importance of professional self-care and strategies to address this need.</p>	<p>Free</p> <p>The recording is HERE.</p>	<p>Physicians, Nurses, Pharmacists, Veterinarians, Physician Assistants, Health Educators, and Other Clinicians</p>
On-demand	Online courses	Rural Domestic Preparedness Consortium	<p>Online courses from the RDPC are a perfect fit for those struggling to work training into their busy schedule. All online training is self-paced and offered at no cost. Browse the catalog of online courses and enroll today.</p>	<p>Find courses HERE</p>	

Date/Time	Location	Title	Information	Registration	Target Audience /Target Capability

Resources	Online	National Information Sharing Consortium (NISC)	Launched in June 2012, the National Information Sharing Consortium (NISC) strives to improve the state of public safety and emergency management information sharing and interoperability through its commitment to four areas of responsibility—sharing, connecting, innovating, and leading. No single function is performed in isolation—they are all interconnected, collectively enabling the NISC to foster capacity building to all of our members on multiple levels.	For more information, see the NISC website .	Organizations involved in all aspects of homeland security, public safety, emergency management and emergency response
Resources	Online	The Train Learning Network	The Training Finder Real-time Affiliate Integrated Network, or TRAIN, is the nation's premier learning resource for professionals who protect the public's health. TRAIN is comprised of the national www.train.org site and participating TRAIN affiliate sites. TRAIN brings together agencies and organizations in the healthcare, public health, and preparedness sectors to share, disseminate, and track training through a joint learning network. Together, TRAIN's 26 state health and preparedness agencies, three federal partners (the Centers for Disease Control and Prevention, Medical Reserve Corps, and Veterans Health Administration), as well as additional national partners, offer more than 3,800 online opportunities to build skills and knowledge.	Visit www.train.org for valuable materials and information.	
Resources	Online	Northwest Center for Public Health Practice Training Catalog	<p>NWCPHP releases Workplace Stress Reduction Training for 9-1-1 Call Center Managers.</p> <p>Researchers from NWCPHP's Next Generation 911 project studied stress among 9-1-1 telecommunicators and developed tailored stress reduction tools to help improve working conditions and build resiliency. Now, an online toolkit in reducing stress at the workplace level is also available.</p> <p>Although the toolkit is designed with 9-1-1 call centers in mind, most of the content is relevant to any profession where job-related stress is a factor, including first responders and public health agencies. Aimed at managers, the toolkit provides evidence-informed tips and techniques for creating a workplace environment that helps everyone thrive even when dealing with challenging, high-pressure work.</p>	Free, 1-hour online toolkit Information HERE	First responders, public health, telecommunicators, and 9-1-1 call center managers.

Conferences

Date/Time	Location	Title	Information	Registration	Target Audience /Target Capability
March 26 – 29	St. Louis, MO	Preparedness Summit 2019	<p>This year's theme is The Evolving Threat Environment. Participate in this Summit for the opportunity to:</p> <ul style="list-style-type: none"> • Interact with leaders in the industry to expand your professional network and raise your profile in the public health preparedness space; • Share your agency's best practices and expertise with colleagues from the healthcare and emergency management and public health preparedness fields to contribute to the advancement of our nation's health security; • Build partnerships with these life-saving industries to strengthen your agency's capacity in the face of emerging threats; • Advance your creative-thinking skillset to find new ways to prepare for, respond to, and recovery from threats like pandemic diseases, the opioid crisis, active shooter emergencies, and cybersecurity threats; • Participate in interactive training and take away innovative solutions and practical strategies to meet the requirements of the evolving threat environment. 	To register and for more information, visit HERE .	Public Health, healthcare, Emergency Management, other preparedness leaders.
April 17 - 18	Lynnwood, WA	2019 Partners in Emergency Preparedness Conference	<p>Success is where preparation and opportunity meet."
