Meet us in the EMS loop!

THIS IS EMS: Caring For Our Communities

Your dedication to improving the lives of others is hallmark of the EMS profession. But we can only do so much individually. The truth is, we're at our best when (and because) we work together-within our EMS service, with neighboring departments, hospitals and other healthcare providers. Responding and providing care side-by-side, with countless hours of preparation and training, we impact the lives of our patients, their families, and our communities.
