SYMPOSIUM

Spreading Preparedness, Not Pathogens

The symposium is sponsored by Providence Sacred Heart Medical Center and Children's Hospital, the Region 10 Emerging Special Pathogen Treatment Center (RESPTC) and is **FREE to attend!**

The Symposium is focused on safe and effective care for patients suspected or known to have a special pathogen as well as planning and preparedness for a special pathogens event. Topics range from patient care considerations, the National Special Pathogen System (NSPS), training and education, transport considerations, regional coordination, and planning.

Keynote Speaker William A Fischer II, MD

Associate Professor of Medicine,
Pulmonary and Critical Care Medicine
Director of Emerging Pathogens
Institute for Global Health and Infectious Diseases
Director UNC Special Pathogen Resource Center
The University of North Carolina School of Medicine

ATTENDANCE IS FREE!

Tuesday, May 6th, 2025
